

3rd CENTRAL EUROPEAN BIOMEDICAL CONGRESS

*News on biomarker discovery and research
innovations in medicine and biomedical sciences*

CRACOW
2018

September 15-18, 2018
Congress venue
Auditorium Maximum

Organizers:

Institute of Pharmacology Polish Academy of Sciences in Kraków
Faculty of Medicine, Jagiellonian University Medical College
associated by the Polish Pharmacological Society and the Polish Toxicological Society

Plenary speakers:

Prof. Csaba Földy	Brain Research Institute, University of Zurich, Switzerland,
Prof. Ulrik Gether	Molecular Neuropharmacology and Genetics Research, University of Copenhagen, Denmark
Prof. Margaret Haney	Columbia University Medical Center, NY, USA
Prof. Francesco Pavone	European Laboratory for Non Linear Spectroscopy and Department of Physics, University of Florence, Italy

The CEBC is dedicated to: physicians, biologists, biotechnologists, pharmacologists, pharmacists and chemists.

Participation in the Congress will be rewarded with 10 educational points for doctors and pharmacists as part of the professional development obligation.

The Congress addresses several hot topics in pharmacology and toxicology, as well as methodological and technological innovations not available in Poland. It also promotes outstanding opportunities for junior scientists to present their research and interact with leaders in the field.
